Hardware Encryption Solutions Police

Data Security

Stonewood design, develop and manufacture encrypted hard drives used by Police Forces to protect data on mobile devices for secure remote working.

Our hardware encrypted drives are also being utilised for in-vehicle systems such as ANPR (Automatic Number Plate Recognition) and other data gathering applications.

- Lifetime Key - no annual rekeying
- Reduces data security level
- Single password authentication for Restricted and Confidential data
- UK manufactured
- CAPS approved & FIPS 140-2 level 2 validated
- Data security for all protective markings
- Whole Disk Encryption (encrypts instantly)
- Transparent operation
- End user friendly
- OS Independent
- No software conflicts
- No system degradation
- Not Licensed
- Supports Imaging
- Fit and Forget Solution
- Can be integrated at Notebook Manufacture
- Leasing options available

Eclipt integrates sophisticated authentication, entire disk encryption and data storage into tamper-resistant internal or portable hardware that safeguards your data. This provides instant data protection without any noticeable adverse effects on your computer's performance.
